For whom is EcoSys published

Economic Systems is published by Elsevier, on behalf of the Leibniz Institute for East and Southeast European Studies (IOS Regensburg), and since 2013 also in collaboration with EACES

IOS Regensburg was created in January 2012, by merging the former Osteuropa-Institut Regensburg with the also Regensburg-based Südost-Institut.

IOS joined the Leibniz Association in 2017.

IOS Regensburg
- Co-Editor: Ali Kutan
Southern Illinois University at Edwardsville
- Editorial Board, ~ 25 members (up to four years)
- Consulting Board for EACES, four members (up to four years)

What is published in EcoSys

Aims and scope

Economic Systems is a refereed journal for the analysis of causes and consequences of the significant institutional variety prevailing among all developed, developing, emerging, and transition economies, as well as attempts at and proposals for their reform.

The journal is open to micro and macro contributions, theoretical as well as empirical, the latter to analyze related topics against the background of country or region-specific experiences. This is to reflect the respective new orientation within the field of comparative economics: decades of development and transition experience in many countries have clearly demonstrated the importance of institutions and institutional change for the functioning of markets and the ways in which policies influence economic activity in general and economic growth in particular. However, we believe that institutional development is only one of the important factors in affecting domestic and global economies.

Hence, *Economic Systems* strongly encourages submissions from all other fields, covering, but not limited to, a variety of aspects of financial and economic systems and development, including private and state banking; goods and services and financial markets; macro and micro policies and their effects; and global trade issues and exchange rate systems in all developed, developing, emerging, and transition economies. We are particularly interested in empirical papers with significant policy implications.

What is published in EcoSys

Selected forthcoming and recent symposia and special issues

Shadow economy, tax behaviour and institutions (Guest Editors: Stanislaw Cichocki and Andrzej Torój, forthcoming in June 2023)

Comparative growth and development experience of BRICS countries (Karsten Staehr and Makram El-Shagi, forthcoming in March 2023)
