## 1. Official news

### 1.1 Message from the president

Dear members of the EACES community,

The end of 2025 and the beginning of 2026 have been busy for us as we finalized the organization of the **19th Biennial EACES Conference in Barcelona (July 16–18, 2026)**. You should already have received the link to the call for papers. For your convenience, you can also find it [here](#). It is available as well on the EACES website, together with all relevant updates.

Please feel free to disseminate the link among the members of your professional networks.

We also continue to fund events that further comparative studies of economic systems and promote interdisciplinary, international, and multicultural collaboration, such as the **18th Joint IOS/Leibniz ScienceCampus/EACES Summer Academy on Central and Eastern Europe**, which will be held in Bernried, Lake Starnberg, Germany, from June 30 to July 2, 2026.

Finally, I would like to remind you that EACES is pleased to disseminate information about workshops, conferences, and other academic and policy events related to comparative economic studies. Such events may also be eligible for financial sponsorship from EACES, with contributions of up to €800, depending on available resources. **If you are organizing an event and would like EACES to help promote and/or sponsor it, I encourage you to contact me or any member of the Management Board.**

I hope that the beginning of 2026 has gone well for you, and I wish you all the best for the months ahead.

Norberto
